- HUEY "PIANO" SMITH'S famed RHYTHM & BLUES is as typically American as apple pie. The trend in recent years to music with a good solid beat can be directly attributed to Huey and his original artistic expression of rhythm and blues music.
- Huey has for many years played the role of "Santa" to music lovers the country over, giving to them the priceless gift of joy with his numerous hit recordings.
- Rarely, if ever, has an album of Christmas music been produced for dancing, as well as listening. In this album Huey presents for your holiday enjoyment a different and delightful variation of Christmas music with a good beat for your every dance preference, whether it be the Pop-Eye, Mash Potato, Slop, Stroll, Twist, or what ever may be your musical menu.
- Children of all ages will delight to Huey's interpretation of the traditional story "T'WAS THE NIGHT BEFORE CHRISTMAS. A lively musical background makes it the most unusual recording ever made of this old favorite.
- This album is certain to get you in a "MERRY" holiday spirit and will for each and every "CHRISTMAS" here after.
